Re: **Tropical Storm Isaias**

To Our Agents:

Farmers Insurance Company of Flemington is currently tracking Tropical Storm Isaias, which is presently heading north along the US East Coast. The models are currently predicting a modest storm, but the forecast has been changing frequently. Therefore, to be cautious, we have activated our catastrophe response plan.

If the storm does impact us significantly, we anticipate a large volume of claims. **If a Flemington Policyholder contacts your office to report a storm loss, the best way to refer the claim to us is via the online reporting mechanism on our website at: <https://www.farmersofflemington.com/report-a-claim-online/>.** This is by far the quickest and most efficient way to get a claim set up. If neither you nor the Policyholder have internet access, you may still fax an Accord to us or report the claim by phone.

We have attached a list of remediation and restoration contractors to this email that our Policyholders may contact for emergency services. Please remind the Policyholder to identify themselves as a **Farmers Insurance Company of Flemington** Policyholder when calling any of these contractors. Of course, it is always the Policyholder's option to use any contractor they wish so long as they are licensed in New Jersey.

Hopefully, this storm will not impact us significantly, but if it hits **Farmers Insurance Company of Flemington** stands ready, as always, to serve our Policyholders. If you have any questions or concerns regarding the impending storm, please do not hesitate to contact us.

Sincerely,

Patrick Allard, CPCU, ARe
